

# Restrictions Exemption Program

Starting September 20, 2021, Leduc Curling Club (LCC) must follow the protocol outlined below, or close its doors.

1. LCC must implement the Restrictions Exemption Program requiring proof of vaccination or negative rapid test result to continue operating as usual.
2. When we implement the Restrictions Exemption Program we will operate as usual, provided we are serving only people who have proof of immunization or who have a recent privately-paid negative test, as per the requirements in place.

The Board of Directors of LCC will be following the Restriction Exemption Program. We will require proof of vaccination in order to move forward with our season. The expectations are listed below. We will outline how you can provide that information in accordance with our privacy protocol soon. Proof need only be shown once. We will not be collecting any paperwork.

This means that LCC could immediately and without restriction serve any individual eligible for vaccination who:

- Has proof of double vaccination (note that for a transitional period between September 20th and October 25, 2021, proof of a single dose would be considered acceptable as long as the dose was given two weeks or more before the time of service)
- Has documentation of a medical exemption; or
- Has proof of a recent (within the previous 72 hours) negative COVID-19 test (either PCR or Rapid Test). The test must not be from Alberta Health Services or Alberta Precision Laboratories.
- Those under 12 would not need to provide proof of immunization or a negative test to enter a participating business.

## **Youth (under 18) sport, fitness, recreation and performance activities (Sept 16)**

- Indoor group classes, training, and competitions are permitted, but participants are required to:
  - screen for symptoms
  - maintain 2 metres distancing, except youth while engaged in physical activity
  - wear a mask, except youth while engaged in physical activity
- Spectator attendance is restricted to 1/3 fire code capacity, attendees are limited to a single household or 2 close contact if living alone and must be masked and maintain 2 metres physical distancing.

### **Proof of Negative Test**

To enter spaces participating in the Restrictions Exemption Program, people aged 12 and older can show proof of a negative test result.

- Tests must be privately-paid COVID-19 PCR or rapid tests completed within 72 hours.
- Tests must not be from Alberta Health Services or Alberta Precision Laboratories.

### **Proof of Vaccination**

To enter spaces participating in the Restrictions Exemption Program, people ages 12 and older can provide proof of vaccination or documentation of a medical exemption.

- Sept. 20 to Oct. 25: proof of a single dose is considered acceptable as long as the dose was given more than 2 weeks before the time of service.
- After Oct. 25: proof of double vaccination is required.
